Summary

As a self-taught programmer, I have proven ability in self-driven learning and building real-world applications. Coming from a professional healthcare service background, I specialized in building client relations. My proven ability to thrive in collaborative environments and deliver exceptional results will contribute to my success as a front-end developer. I am currently building applications with ReactJS, NextJS & Tailwind CSS.

Tech stacks

Git, Github, VS code

Front-end: HTML, CSS, Javascripts, ReactJS, NodeJS, NextJS, SCSS, Tailwind CSS

Back-end: NodeJS, ExpressJS

Personal Projects

Charity Finder - MERN full-stack application

2023 July - 2023 Aug

NodeJS, ReactJS, Typescript, ExpressJS, TailwindCSS, MongoDB

Skills

- REST API with ExpressJS. Users are able to create and remove favourite charities from the database.
- UX enhancement with alert message for duplicated entry, animation on selection, and dark mode implementation
- Fetching data from Every ORG's API and performed search function

Monetary Canada - an informative financial website

2022 May - 2023 Jun

HTML, SCSS, CSS, Javascript

Skills

- Mobile responsive with react-responsive library
 - Animated mobile navigation bar with custom hook and React lifecycle
- Loading page with React lifecycle custom hook and framer-motion library
 - Lazy loading for bulky blog post feed for UX enhancement
 - Image optimization
- Routing to different pages with react-router-dom library
