Summary

As a self-taught programmer, I have proven ability in self-driven learning and building real-world applications. Coming from a professional healthcare service background, I specialized in building client relations. My proven ability to thrive in collaborative environments and deliver exceptional results will contribute to my success as a full-stack developer. I am currently building applications with ReactJS, NextJS, MongoDB and Tailwind CSS.

Tech stacks

Git, Github, VS code

Front-end: HTML, CSS, Javascripts, ReactJS, NodeJS, NextJS, SCSS, Tailwind CSS

Back-end: NodeJS, ExpressJS

Personal Projects

Whatnow Map - Mobile first MERN stack application

2023 July - 2023 Aug

NodeJS, ReactJS, Typescript, ExpressJS, TailwindCSS, MongoDB, Figma, Firebase Cloud

Skills

- Real time community events sharing platform which emphasize cultural exploration within neighbourhoods
- Well-designed UI with open street maps which show live events with precise location. Users are provided with navigation route from google map API.
- User authentication with OAuth, PassportJS & MongoDB for information storage
- Live event exploration with the capability to create, vote, report and filter events by category, with REST api and CRUD

Charity Finder - MERN stack application

2023 July - 2023 Aug

NodeJS, ReactJS, Typescript, ExpressJS, TailwindCSS, MongoDB

Skills

- Constructed REST API with ExpressJS where users are able to create and remove favourite charities from the database.
- Alert message for duplicated entry, animation on selection, and dark mode implementation
- Fetched data from Every.org's API and performed filter function

Twitter-clone

2023 July - 2023 Aug

NextJS, NodeJS, ReactJS, Typescript, ExpressJS, TailwindCSS, MongoDB, Redux

Skills

- Replicated twitter UI with tailwindCSS, and implemented mobile responsive and dark mode feature
 - Utilized Redux store, useEffect, useLayoutEffect, useMemo hooks for state management and integration of UI
 - Next 13 routing for both frontend and backend
 - Server side rendering for website performance
-

Working experience

CNE GAME ATTENDANT

2023 Aug - Current

Astro Amusements, Toronto

Achievements

- Managed to multitask in a fast-paced environment direct traffic that allowed 30% more space utilization
- Convincing attendees to participate in the event, which scored over 50% success rate, and received mostly positive feedbacks from participants

Physiotherapist

2022 Sep - 2023 Mar

Benevolence Rehabilitation Services Limited, Hong Kong SAR

Achievements

- Aligned with clients' expectations and requirements and able maintained an excellent customer relation and high customer satisfaction with nearly 100% of positive feedbacks.
 - Collaborated with team of 20 individuals to discuss monthly and annual operation goals and regularly updated guidelines and timetable for progressive targets
 - Increased treatment sessions by 25% and provided over 25 individual sessions everyday.
-

Education & Certifications

- Web Development IT Program
 - Cantek by Futuretek Academy, Toronto
- FCC Responsive Web Design Certificate
- FCC JavaScript Algorithms and Data Structures Certificate
- Bsc (Hons) in Physiotherapy
 - The Hong Kong Polytechnic University cohort Sep 2018- May 2022
